

MANUFACTURING
ALL KINDS OF
NYLON YARN

AGLON
INDUSTRIES PVT LTD

Building Partnership
with **Premium Quality**

In the world of textile industry, two esteemed organisations GOENKA GROUP & AGRAWAL GROUP collaborated with a passionate desire to make a mark in terms of quality and innovation. The affiliation came into existence in the name of AGLON INDUSTRIES PVT. LTD.

The firm is bounded and committed to raise the bar in the world of YARN industry.

With the sound on-hand experience of more than 30 years the board of directors started with their own yarn manufacturing company. The endeavour in the span of 11 months [2015-16] resulted into a platform, ready to serve the market.

AGLON with a vision of being a Top Leader with Premium Quality have used the world best Japanese's technology and the 24 ends State of Art winders also from TMT Japan.

AGLON is the pioneer in introducing these winders first time in India for the production of Nylon FDY yarn.

PLANT START-UP & EXISTING MARKETS

Aglon with a vision of premium quality used world's best state of the art technology from TMT JAPAN & introduced 24 ENDS winders first time in the NYLON WORLD MARKET after CHINA.

AGLON products were launched in the market in January-2017 and now AGLON is a preferred supplier among the Premium Quality producers of Sarees & Knitted Fabrics. AGLON has already established its brand image in India & now started export to China & Bangladesh.
